Breakfast. Start of the trip Cabo San Pablo and Rolito, hid-

den secrets of this land. Very early in the morning, our team leaves from Ushuaia with our guests following the National Route 3 and cross the Andes by the Garibaldi Pass. We stop in the small town of Tolhuin, heart of the island, to visit La Unión Bakery. This is a traditional meeting point for both locals and visitors and is part of the charm of the place. Towards noon we arrive at the Provincial Route "A", where we take a gravel road towards the Atlantic Ocean and Cabo San Pablo. At this point, we walk to an isolated mountain with an abandoned lighthouse at the end.

From up there, our guests can appreciate El Desdemona, a ship stranded for almost 40 years that invites us to navigate through time. It happened one cold morning of the winter of 1983, when a huge ship ran aground on the shores of the Argentine Sea. After exploring this mysterious giant, we visit the Estancia Rolito, a charming country house that preserves the spirit of family entrepreneurship based on the sheep tradition and is a pioneer in opening its gate to rural tourism. Back to the hotel. Accommodation.

DAY 01. BUENOS AIRES

Arrival and greeting at the international airport. Transfer in to the chosen hotel. The city of Buenos Aires, also known as La Reina del Plata (The Queen of Silver), seduces with its history, culture and passion that emanates from every corner. Among its streets are combined, almost to perfection, the noise and the entertainment with the outdoors and the natural beauty.

Afternoon off. At night, at the time scheduled, we will visit a Dinner & Show at La Ventana. In Argentina, Tango is the typical folk music. Even though Carlos Gardel is the soul of Tango, people such as Astor Piazzolla, Mariano Mores, Anibal Troilo and Juan de Dios Filiberto, among others, have immortalized it even more. What started as a forbidden style of music and now is the image of the porteño identity. Accommodation.

DAY 02. BUENOS AIRES

Breakfast. Free morning, during the afternoon, we begin the Tango Tour. Besides from being specifically Buenos Aires' urban music, there's something magical about Tango. On this fantastic tour, we'll trace back the history of tango, from its suburban origin, through its formalization on Corrientes Avenue to its internationalization. We start our visit at the former suburbs of old Buenos Aires, where the city met the country. We'll then head for La Boca, a working-class port district, where the largest part of the Italian immigration, mainly from Genoa, settled in the late 19th century. There, we'll visit its emblematic tenement houses. As Tango became more popular, it moved from the suburbs to the center, and thanks to popular theatre and the apogee of the radio era, it gained enormous popularity, until it reached Corrientes Street. Since then, Tango has been considered Buenos Aires' cultural icon par excellence. When we're done walking across Corrientes Street (which, frankly speaking, is actually an Avenue), we'll visit the Palais de Glace, and elegant ballroom where the wealthy classes started to dance the tango; precisely, they are responsible for exporting tango to Europe. The final

internationalization of tango took place when Carlos Gardel, the greatest tango singer of all times, took tango to the silver screen of Hollywood. Finally, we'll visit the neighborhood of Abasto, where Gardel was born.

The neighborhood, home of many Milongas where the purest form of tango is danced, still keeps its distinctive character, and you can still see kids playing soccer on the sidewalk and people sharing a popular mate on their doorsteps. We'll visit the house where Carlos Gardel used to live, recently declared national heritage. Accommodation.

DAY 03. BUENOS AIRES

Breakfast. At the scheduled time, starts a tour with an awesome combination of places, experiences, and feelings. This tour gives you the emotion of a multiple city with great contrasts. Tango is loved all over the world and this tour shows you the character of the city where Tango was born. We will know Carlos Gardel's life, the life of our most important Tango singer. We will also visit the most important places of Buenos Aires that are related to our traditional music. We will see the icon of Buenos Aires: The obelisk. We are going to see some parks and squares, and we are going to make a stop in the most important one: May Square (Plaza de Mayo), where the first step to our independence was done in May 1810. We will go through the most traditional avenues like Corrientes Av., 9th of July Av and more. This tour gives you the opportunity to see the historical neighbourhoods of the South of the City as San Telmo, Monserrat and La Boca (where we will make a stop), but also you will see the elegant and exclusive neighbourhoods of the north part of the city as Recoleta, Palermo and Belgrano. This exclusive tour is also about Evita's life, the most important woman of Argentina. Another important places that we will see are Puerto Madero neighbourhood (the newest one of the city), Boca Juniors Stadium and we will visit Evita's Museum. Return to the hotel. Accommodation.

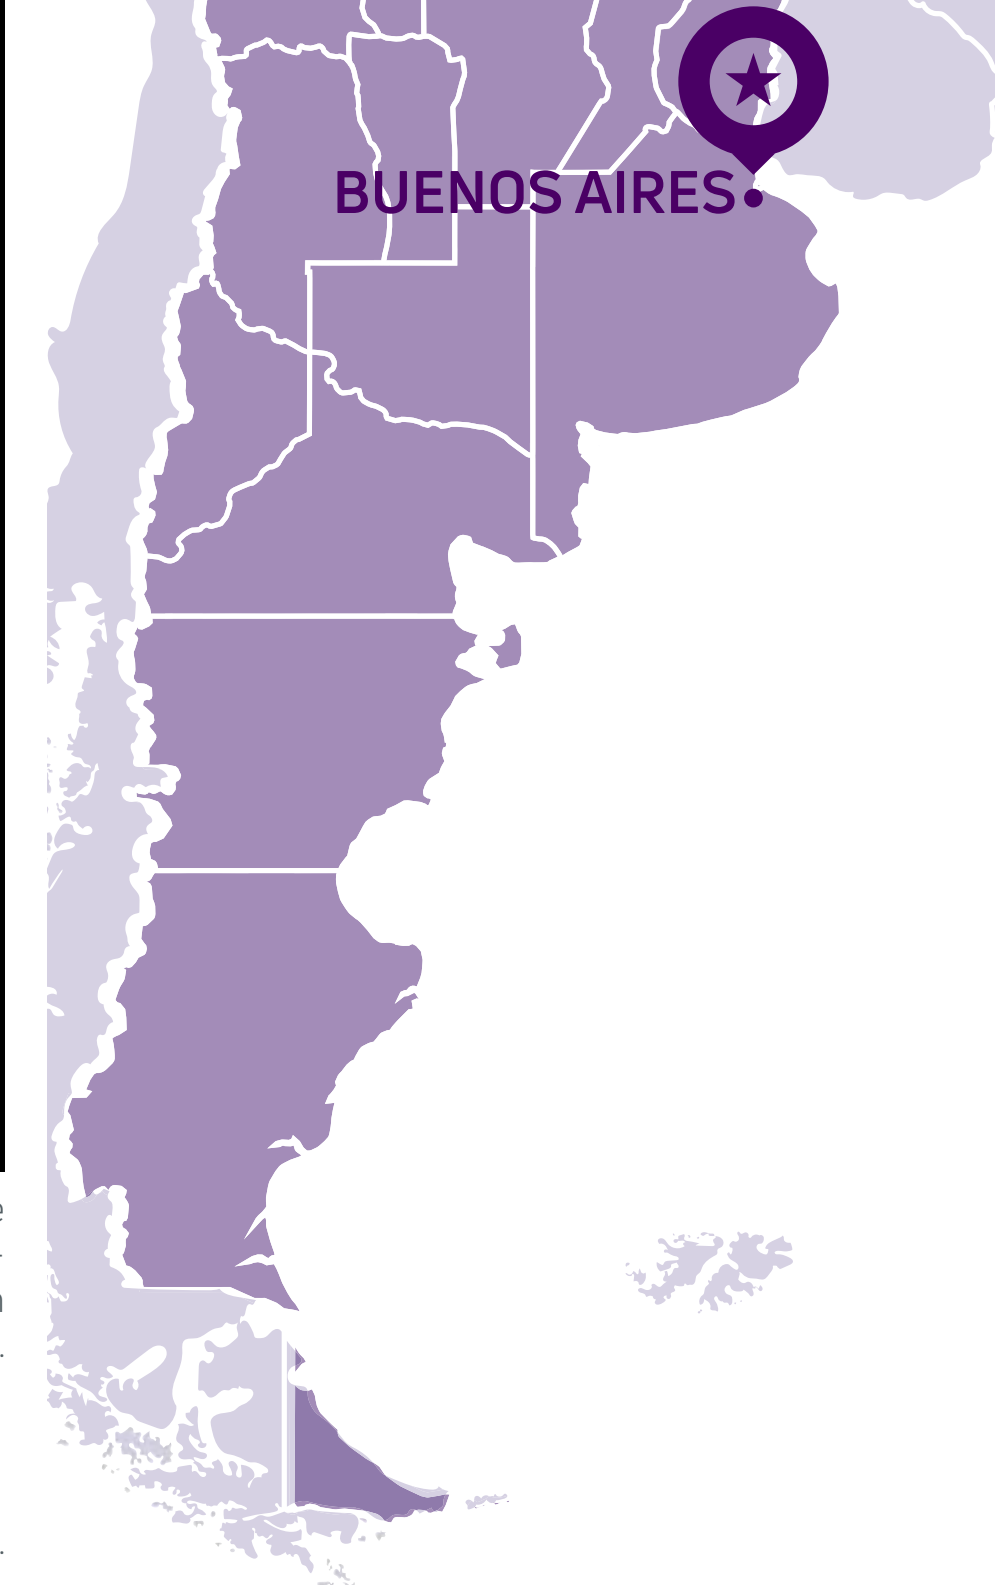

DAY 04. BUENOS AIRES

Breakfast. During the morning you will be picked from the hotel to start a new expedition. We will know the costumes, culture and ways of life of "isleños" (people who live in the islands); we will have lunch enjoying a great view of the river. We will visit the most traditional market at Puerto de Frutos and then we will go to this natural scenery and will navigate into the islands. After that we will visit the elegant residences located in the residential neighborhoods of the northern suburbs. San Isidro neighbourhood, its history and people. There we will make a

stop. On the way back to Buenos Aires, we will go through the Presidential Residence (Quinta de Olivos). The tour could finish, if you want, in San Telmo neighborhood, where you can see the most important Flea and antique Market in the City. Include lunch without drinks. Accommodation.
